

## **Nadia De MOTA-PICCO**

Email : nadia.demota@college-de-france.fr

Born on April 1st 1973 – French Nationality.

## **Trainings**

---

1994 **BTS in Biotechnology, Ecole Nationale de Chimie, Physique et Biologie, Paris XIII.**

1992 **Baccalauréat série C (mathematics, physics) Lycée Marcelin Berthelot, Pantin.**

## **Professional Expériences**

---

Since September 2022 : **Research and training Technician (CE)**

INSERM Unit 1050, "Formation and Evolution of Skin Patterns" team (director: Dr M. Manceau) - CIRB - Collège de France - Paris V.

2010-2022 : **Research and training Technician (CN, CS puis CE)**

INSERM Unit 1050, "Central neuropeptides in the regulation of water balance and cardiovascular functions" team (director: Dr C. Llorens-Cortès) - CIRB - Collège de France - Paris V.

2005-2009: **Research and training Technical Assistant**

INSERM Unit 691 "Central neuropeptides in the regulation of water balance and cardiovascular functions" (director: Dr C. Llorens-Cortès) - Collège de France - Paris V.

1995-2004 **Research and training Technical Assistant**

INSERM Unit 36 "Vascular Pathology and Renal Endocrinology", Dr C. Llorens-Cortès team – Chair of Experimental Medecin of the Pr Corvol - Collège de France - Paris V.

⇒ *Involvement in various projects concerning the research areas of the team: the study of the organization and functional role of the cerebral renin-angiotensin system and the apelinergic system.*

1994 (2 months) : **Laboratory Technician**

Center for Therapeutic Research in Ophthalmology (director : Dr M. Abitbol)- Faculty of medicine Necker-Enfants malades - Paris XIV.

⇒ *Participation in the creation of the laboratory.*

1994 et 1993 (12 weeks) **Trainee within the framework of the BTS**

INSERM Unit 75 "Pharmacologic and Metabolic Biochemistry Laboratory" (director : Pr Beaune) - Faculty of Medicine Necker-Enfants malades - Paris XIV

⇒ *Initiation of a research project on the study of the polymorphism of human cytochrome P450 2E1.*

## **Skills and technical know-how**

---

- I autonomously carry out experiments in molecular and cellular biology, enzymology and pharmacology and analyze results obtained.
- I develop and optimize new techniques in order to develop the research project.
- I participate in the writing of articles resulting from research work.
- I transmit to students the techniques commonly practiced and the safety rules related to the practice of these experiments.
- I participate in common tasks inherent to the proper functioning of the laboratory.
